WHO I AM

I prefer Python, but I wear many hats. I have written code in C#, Python, vanilla JavaScript, and ReactJS. I have dabbled in C, Scheme, C++, and Bash. I have built static sites in GatsbyJS, interfaces in WPF, and web scrapers and bots in Python. I even built an arduino-based PID controller for a popcorn popper to roast my own coffee. But by far most of my time has been spent developing a single web technology, consisting of \approx 14,000 lines of code in Python, Flask, and SQLAlchemy, in the pursuit of my obsession with literature: anno.wiki.

All of this should demonstrate that I am a full time learner. I have spent enough time learning new things that I have full confidence in my ability to learn new things. But most of all, I am a thoughtful programmer. I think twice about abstraction or hard coding, I think about tech debt and the way users will interact with a feature. When I'm writing code in the present, I'm thinking about the future.

EXPERIENCE

- 2020 – Current **Euler Sciences LLC** **Contract Developer**
I worked on a GUI interface for laser system meant to treat skin conditions. I also developed the company website in GatsbyJS (and did the graphical work myself in Photoshop).
C# / Windows Presentation Foundation / SQLite / Photoshop / GatsbyJS
- 2020 – Current **Healthy Brands, LLC** **Contract Developer**
I've worked on several projects for this company I've:
- built and deployed a multithreaded scraper and alert system for notifying the company of BuyBox loss events on Amazon using a variety of data sources
 - launched and modified a Django-based question and answer forum from biostars
 - prepared and maintained several VPS servers, including one in Arch Linux
 - designed and maintained several WordPress sites
 - integrated Twilio into the company's ZOHO CRM software
 - and modified several Shopify templates
- Python / BeautifulSoup4 / Zoho / Twilio / WordPress / Shopify
- 2019 – Current **Intertextual Canon Cloud 2** **Flask/React App**
This is the second iteration of the ICC (see below), with improved data architecture and a single-page application front end based in React. Using Elasticsearch to store texts and PostgreSQL to store annotations and general application data allows for faster incremental searching. I also wrote more sophisticated text processors for breaking text into 100k byte chunks and annotating stylistic elements, while stripping all styling from the raw text.
Python / Flask / SQLAlchemy / Elasticsearch / PostgreSQL / Docker / Auth0 / ReactJS
- 2017 – 2019 **Intertextual Canon Cloud (anno.wiki)** **Flask App**
The ICC is a web application designed to allow for collaboratively building an exhaustive and definitive repository of annotated literature. I designed, developed, deployed, and continue to maintain the project solo, managing occasionally to rope in some programmer friends for help with various features. It consists of \approx 14k lines of code and \approx 100k lines of code churn. The backend uses Flask/SQLAlchemy. The frontend uses Jinja2, Sass, and VanillaJS. I also had to write several ETL data pipelines for processing Project Gutenberg texts. It is deployed via Heroku. I learned the entire web application life cycle on this project, and it continues to teach me. It is currently maintained at <https://anno.wiki>.
Python / Flask / SQLAlchemy / MariaDB / Elasticsearch / pytest / Heroku

EDUCATION

- 2008 – 2010 **Philosophy and Classics** **Florida State University**
Focused on Ancient Philosophy, particularly Aristotle, Philosophy of Mind, and Symbolic Logic. Also studied Ancient Greek and Latin. President of Philosophy Club (2010)
- 2007 – 2008 **Philosophy** **University of South Florida**
General introductory classes, Social Philosophy, Critical Thinking

LANGUAGES

English — native,
French — fluent,
Spanish — rudimentary

FREE TIME

I am a lifelong learner, constantly finding new things to obsess over. In the last 3 years I've learned the intricacies of wine and cheese, learned to roast coffee and brew top-tier espresso, become a sophisticated mixologist, and learned to speak French.
